

MuteClip[®] Channel Product Data

Description: MuteClip Channel is only compatible with our MuteClip, the reason for this is that the design maintains a return lip to hold substantially more weight as the MuteClip clasps onto this - it cannot be used as a resilient channel. The design also includes two indentations along the profile to provide the channel with further strength.

Dimensions: 23mm x 63mm
Lengths Available: 1.5m, 1.85m, 2.4m
Weight: 625g - 1kg

Features and Benefits: Engineered and tested for use with the MuteClip systems.
Returned lip.
Strengthened profiles.
Not to be used as a resilient channel.
