

MuteClip® MP

Product Data.

MuteClip® MP (Multi-profile) is an acoustic isolation clip with a unique design. It uses dual-density rubber polymers to reduce noise across a wide range of frequencies. Each clip is built for stable, consistent performance. The right-angle profile allows it to isolate different building elements while matching the performance of the standard **MuteClip®**.

Dimensions: 45mm x 42mm x 116mm
Unit Weight: 99 g
Maximum Load: 16 kg (36 lb) per each **MuteClip®**

Features and Benefits:

- Dual density rubber isolator.
- Dramatically reduces airborne and impact noise as a high performing, slimline acoustic system.
- Only one fixing per **MuteClip®** allows for easy installation.
- Can be used on metal, wooden, brick and concrete structures.
- Reduced points of contact to help de couple ceiling and wall systems.
- Significantly improves noise control in both high and low frequencies.
- Multi-profile design for flexible use.
