

MuteClip®

Product Data.

MuteClip® is uniquely designed with dual-density rubber polymers to reduce noise across a wide range of frequencies. Each clip delivers stable, consistent performance. It needs only one fixing point, this minimises contact with wall and ceiling surfaces and improve overall sound isolation.

Dimensions:	75mm x 35mm x 29mm
Unit Weight:	50g
Maximum Load:	16 kg (36 lb) per MuteClip®
Temperature Stability:	-35°C to +100°C

Features and Benefits:

- Dual density rubber isolator.
- Dramatically reduces airborne and impact noise as a high performing, slimline acoustic system.
- Only one fixing per **MuteClip®** allows for easy installation.
- Can be used on metal, wooden, brick and concrete structures.
- Reduced points of contact to help de-couple ceiling and wall systems.
- Significantly improves noise control in both high and low frequencies.
